Organization: Save the Children Albania

Issue date: 26 May 2026

Background

Save the Children in Albania works to improve the lives of children and families in different regions of the country, in both urban and rural areas, and has been active since 1999.

Our work focuses on supporting children who are most in need and who are often excluded due to factors such as poverty, disability, place of residence, gender, or ethnicity. Our programmes and advocacy aim to empower children so that they can participate more fully in school and community life and have a voice in decisions that affect their rights and lives.

Save the Children in Albania is implementing the I.N.V.E.S.T. (Inspiring New Ventures, Entrepreneurial Skills and Training) project, a 36-month initiative funded by the Italian Agency for Development Cooperation, in partnership with local organizations in Albania and Italy. The project targets young people aged 15–29, with the goal of improving their access to decent work and increasing their active participation in the labour market.

The project focuses on strengthening vocational education and training (VET) systems to better align them with labour market needs. It supports schools and training centres by upgrading curricula, improving infrastructure, and equipping teachers with skills in areas such as digital marketing, life skills, and emerging sectors like agroforestry and maritime professions.

In addition, the project enhances employability and entrepreneurship through career guidance, skills development programmes, and support for start-ups, including access to financing and business networks. It also facilitates smoother school-to-work transitions by promoting internships, on-the-job training, and partnerships between educational institutions and businesses.

Finally, the project contributes to strengthening institutional partnerships and influencing VET policies to create a more inclusive, sustainable, and demand-driven education system in Albania.

Purpose

This Request for Quotation (RFQ) is issued to meet the procurement requirements of the I.N.V.E.S.T. project, funded by AICS. All bidders are required to fully comply with the applicable project regulations and compliance requirements.

Save the Children will enter into a framework agreement with the winning supplier for a period of one year, with the possibility of renewal for an additional year, subject to satisfactory performance and project needs.
